EcoBuilders: Greener Tomorrow

Content & Material Production Guide

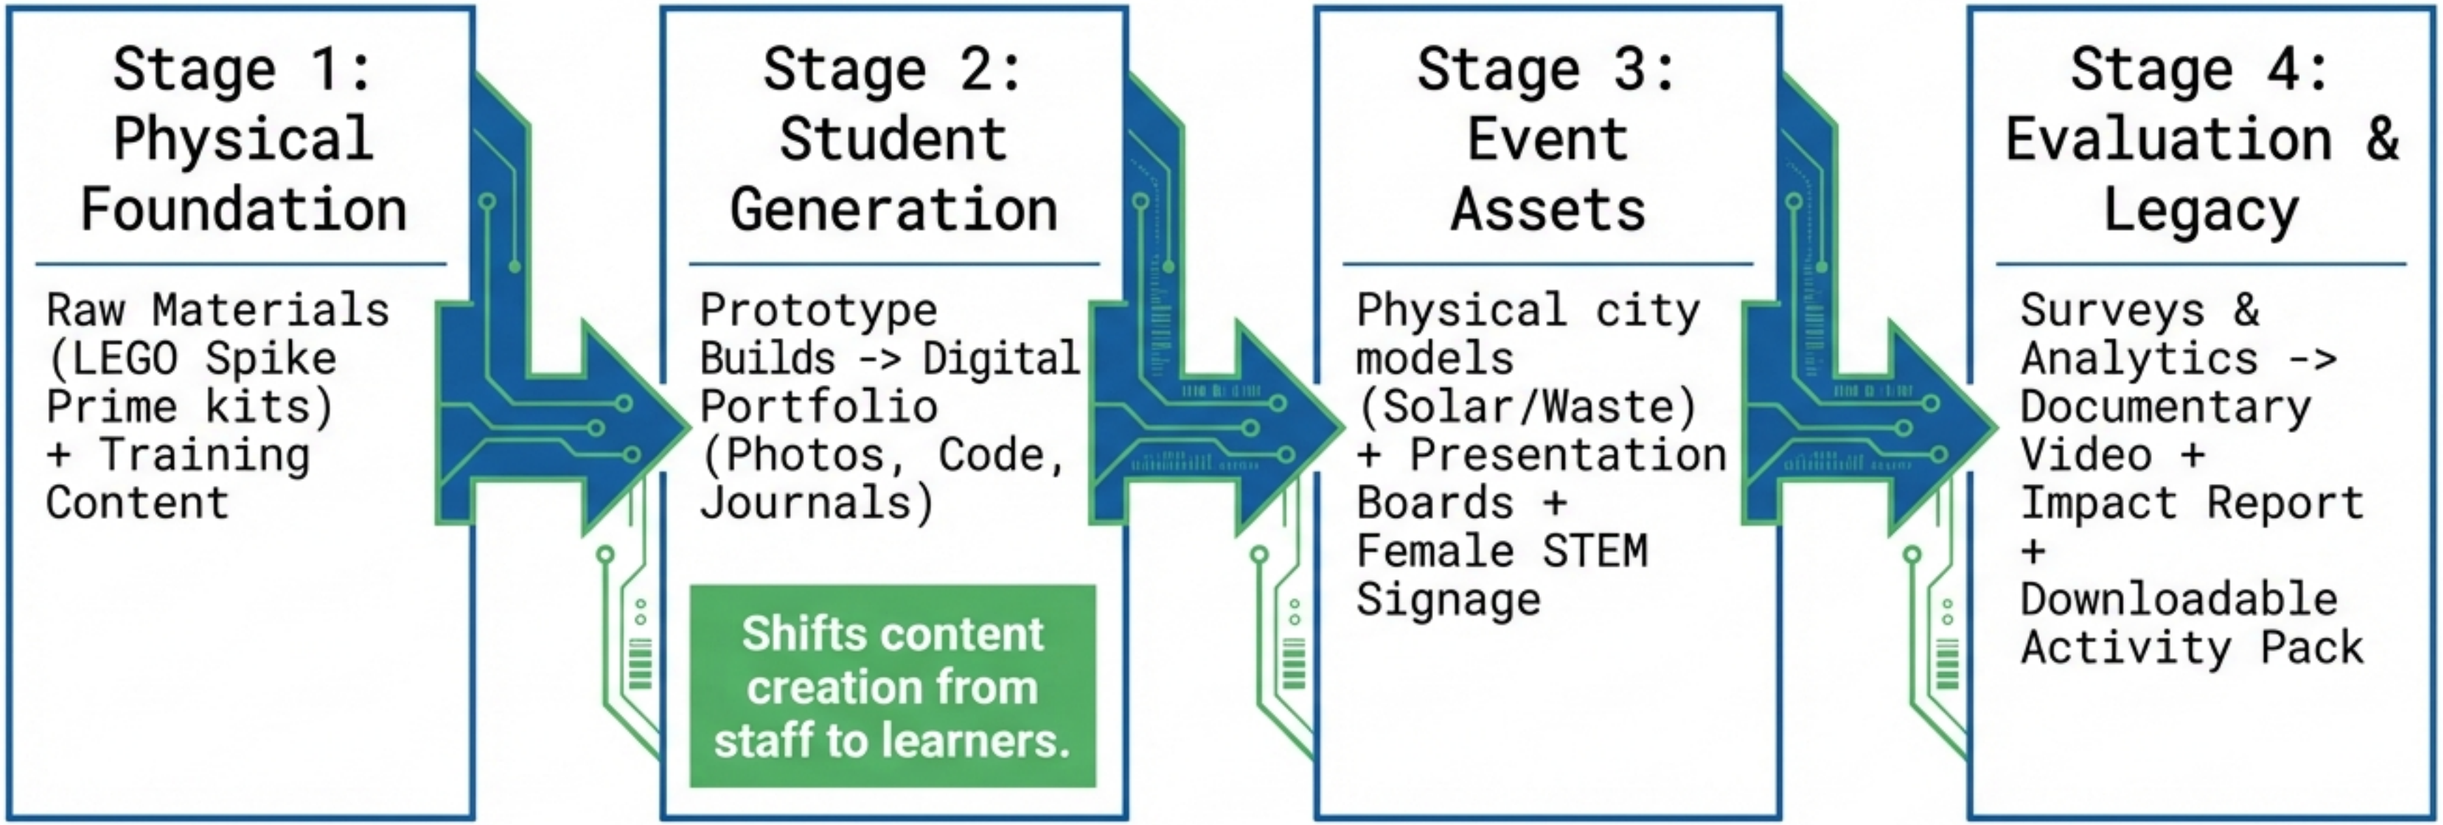

A comprehensive roadmap for deliverables, documentation, and media production.

San Ġorġ Preca College, Ħamrun Secondary (SGPC) | Project Execution Playbook

NotebookLM

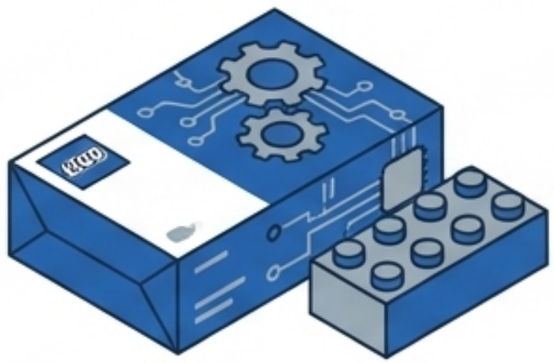

The Content Ecosystem

Core Takeaway: Every physical build generates a digital asset; every digital asset fuels the final impact report and promotional media.

NotebookLM

Hardware Procurement

Item: 8 LEGO Spike Prime sets

Timeline: July–August 2025

Purpose: Foundational tools for weekly build sessions focusing on green energy and smart mobility (SDG 11 & 13).

Training & Mentorship Materials

Creator: Mr. Kevin Spiteri (Certified LEGO Education Teacher Trainer)

Deliverables: Educator onboarding guides, mentorship session frameworks

Focus: Scaffolded activities supporting inclusive learning and mixed-gender team dynamics.

NotebookLM

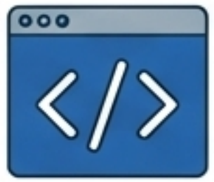

Phase 2: Student-Generated Digital Content

Visual Documentation

Format: Photos and videos.

Subject: Prototypes in development, functioning mechanisms.

Technical Assets

Format: Digital files and diagrams.

Subject: Code samples, annotated design diagrams showing scientific reasoning.

Written Reflections

Format: Team journals.

Subject: Reflections on scientific thinking, teamwork, and local environmental issues.

Destination: School's digital platforms.
Target: 100% of teams complete and publicly upload their portfolios.

NotebookLM

Phase 3: The Public Showcase Blueprint

- [ ] **Physical Models:** Fully functional LEGO builds featuring sustainable systems (e.g., solar-powered transit, smart waste management).
- [ ] **Student Collateral:** Student-led presentation scripts and display boards articulating engineering principles.
- [ ] **Event Signage & Staging:** Dedicated displays highlighting female-led teams and innovations. Stage setup for the panel discussion featuring female STEM professionals.
- [ ] **Measurement Tools:** Attendee sign-in sheets and feedback forms.

KPI Target:
≥ 100 attendees

NotebookLM

Documentary Video

Format: Short-form YouTube video capturing the journey.

Written Outreach

Format: Blog post or summary article.
Distribution: Esplora and the Ministry for Education networks.

Target:
≥ 500 online views/interactions

Web Platform

Format: Dedicated project page on the SGPC school website.
Content: Hosting digital portfolios and student videos.

Social Media Campaigns

Format: Graphics and posts.
Focus: Spotlight student achievements, explicitly highlighting girls and underrepresented students.

NotebookLM

What We Are Measuring (KPIs)	The Material We Must Create
Increase STEM engagement (≥ 80%)	Pre- and post-project student surveys.
Promote girls' participation (≥ 50% cohort) & Inclusivity (≥ 90% satisfaction)	Focus group interview scripts specifically for female participants.
Community involvement	Event attendance logs and website/social media analytics trackers.
Overall Project Impact	Final Impact Report, with all data strictly disaggregated by gender.

NotebookLM

Phase 6: Legacy Resources & Educator Toolkits

The EcoBuilders Activity Pack

A finalized, downloadable PDF document designed for other schools interested in replicating the project.

Cloud Archive

A **structured, accessible Google Drive** (or similar cloud format) containing all finalized portfolios, code samples, and project media.

Strategic Purpose: Ensures long-term visibility and transforms SGPC's local effort into a national resource for public education institutions.

NotebookLM

Content Production Roadmap

Q3 2025

Procure 8 Kits, Generate Training Materials, Deploy Baseline Surveys (Sept)

Q2 2026

Produce Showcase Assets (Functional models, presentation boards), Deploy Final Surveys (April)

Q4 2025

Q1 2026

Q3 2026

Q3 2025

Q1 2026

Q2 2026

Q4 2025 - Q1 2026

Continuous Portfolio Generation (Photos, code, annotated diagrams, journals).

Q3 2026

Edit Documentary Video, Curate Digital Materials, Submit Final Impact Report to Esplora (June)

Procurement/Prep

Data Collection

Media Production

NotebookLM

Final Production Checklist: Top 10 Deliverables

Educators & Coordinators

- [ ] 1. Pre/Post Survey Instruments.
- [ ] 2. Dedicated School Webpage.
- [ ] 3. Showcase Event Signage & Logs.
- [ ] 4. Final Impact Report (Gender Disaggregated).

Mentors (Mr. Spiteri & Guests)

- [ ] 5. Educator Training Guides.
- [ ] 6. Downloadable EcoBuilders Activity Pack.

Student Teams

- [ ] 7. 8 Functional LEGO Spike Prime Models.
- [ ] 8. Photo/Video Development Logs.
- [ ] 9. Annotated Code & Design Diagrams.
- [ ] 10. Team Journals & Showcase Presentations.
